

## SUMMARY OF BENEFITS

**Cigna Health and Life Insurance Co.**  
**For - Champlain College**  
**Open Access Plus HDHP Plan**

**Notice of Grandfathered Plan Status** This plan is being treated as a "grandfathered health plan" under the Patient Protection and Affordable Care Act (the Affordable Care Act). As permitted by the Affordable Care Act, a grandfathered health plan can preserve certain basic health coverage that was already in effect when that law was enacted. Being a grandfathered health plan means that your coverage may not include certain consumer protections of the Affordable Care Act that apply to other plans, for example, the requirement for the provision of preventive health services without any cost sharing. However, grandfathered health plans must comply with certain other consumer protections in the Affordable Care Act, for example, the elimination of lifetime limits on benefits. Questions regarding which protections apply and which protections do not apply to a grandfathered health plan and what might cause a plan to change from grandfathered health plan status can be directed to the plan administrator at the phone number or address provided in your plan documents, to your employer or plan sponsor or an explanation can be found on Cigna's website at [http://www.cigna.com/sites/healthcare\\_reform/customer.html](http://www.cigna.com/sites/healthcare_reform/customer.html). If your plan is subject to ERISA, you may also contact the Employee Benefits Security Administration, U.S. Department of Labor at 1-866-444-3272 or [www.dol.gov/ebsa/healthreform](http://www.dol.gov/ebsa/healthreform). This website has a table summarizing which protections do and do not apply to grandfathered health plans. If your plan is a nonfederal government plan or a church plan, you may also contact the U.S. Department of Health and Human Services at [www.healthcare.gov](http://www.healthcare.gov).

**Selection of a Primary Care Provider** - your plan may require or allow the designation of a primary care provider. You have the right to designate any primary care provider who participates in the network and who is available to accept you or your family members. If your plan requires designation of a primary care provider, Cigna may designate one for you until you make this designation. For information on how to select a primary care provider, and for a list of the participating primary care providers, visit [www.mycigna.com](http://www.mycigna.com) or contact customer service at the phone number listed on the back of your ID card. For children, you may designate a pediatrician as the primary care provider.

**Direct Access to Obstetricians and Gynecologists** - You do not need prior authorization from the plan or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, visit [www.mycigna.com](http://www.mycigna.com) or contact customer service at the phone number listed on the back of your ID card.

Your coverage includes a health savings account that you can use to pay for eligible out-of-pocket expenses.

### Maximum Reimbursable Charge

Out-of-Network services are subject to a Calendar Year deductible and maximum reimbursable charge limitations. Payments made to health care professionals not participating in Cigna's network are determined based on the lesser of: the health care professional's normal charge for a similar service or supply, or a percentage (200%) of a fee schedule developed by Cigna that is based on a methodology similar to one used by Medicare to determine the allowable fee for the same or similar service in a geographic area. In some cases, the Medicare based fee schedule is not used, and the maximum reimbursable charge for covered services is determined based on the lesser of: the health care professional's normal charge for a similar service or supply, or the amount charged for that service by 80% of the health care professionals in the geographic area where it is received. The health care professional may bill the customer the difference between the health care professional's normal charge and the Maximum Reimbursable Charge as determined by the benefit plan, in addition to applicable deductibles, co-payments and coinsurance.

### Multiple Surgical Reduction

Multiple surgeries performed during one operating session result in payment reduction of 50% to the surgery of lesser charge. The most expensive procedure is paid as any other surgery.
